4 STAPELBARE ACCU PACKS > 230V 1500/2000 W

## GR WATTSUN DOCK 1500

GR WattSun is the fastest solution for the professional to use stored energy at any location. A further 4 extra exchangeable packs can be stacked on top of the dock station. THIS IS UNIQUE! Can be built into the STALICO camera masts and can be used on any terrain. We are happy to make time to inform you about this revolutionary battery system. Totally safe and user-friendly.

You can consult the folder under the heading WATTSUN.
